### ***Session Details:***

**Not just kids get to have fun this summer; it's time for you to head to camp – WSCA Camp, that is!** When you register for camp, make sure to choose the right “Cabin” to suit your summer camp goals. We can't promise you bonfires and canoeing, but we can promise you'll learn all the ins and outs of Academic and Career Plans in our crash course or begin working on implementing the ASCA National Model. And, since all the training is inside, you don't have to worry about mosquitoes!

#### **Cabin A: ASCA Model Implementation**

Learn about the Wisconsin transition to the ASCA model. See how the model can help with writing SLOs, promoting your program, and utilizing data to show how your program is impacting students. Your camp counselor will walk step by step through the data process and you will learn what makes an impactful graph, how to write SMART Goals (which can lead to SLOs), and more. You'll scout out tips and suggestions about how to approach the process and how to begin the process of implementing the ASCA model.

#### **Cabin B: Academic and Career Plans (ACPs) Crash Course!**

Attention campers – in the 2017 – 18 school year, school districts will be required to ensure that all students in grades 6 – 12 receive academic and career planning services (ACPs). The ACP process braids multiple educational initiatives together, providing a vision for ensuring students graduate with a solid plan for their futures. Join your DPI camp counselors for a crash course to be on pace for meeting the state requirements in the fall.

#### **Who can benefit from this course?**

Counselors, counselors-in-training, administrators, any professional involved in wanting to implement the ASCA national model or prepare for ACP requirements.
